Abroad, the price for calling to local service numbers may vary from operator to operator, even when calling to the same service number, hence the calls are charged according to price list of the local operator. In addition, service numbers that are offered free of charge to locals are not necessarily free of charge for Enreach's customers.

Sending multimedia messages when abroad costs the domestic MMS sending price + data transmission charge applied to the price category. Receiving multimedia messages abroad is subject to the data transmission charge applied to the price category.
